## STAFFORD PUBLIC SCHOOLS

## **Stafford Springs, Connecticut**

## **Pesticide Management Policy**

Date \_\_\_\_\_

The intent of this policy is to ensure that students, employees, and parents/guardians receive adequate otice, in conformity with applicable statutes, prior to pesticide application in school buildings and on chool grounds.			
The Stafford Public Schools will:			
• Provide notice of planned pesticide application to students, parents/guardians, and employees in the manner required by law and establish a registry of parents/guardians and staff who want to receive such advance notice.			
<ul> <li>Post the areas scheduled to receive pesticide application(s).</li> </ul>			
<ul> <li>Maintain written records for five years of all pesticide applications.</li> </ul>			
• Provide continuing instruction to those students who, based upon written medical request, fine it necessary to be absent during the period of application.			
<ul> <li>Inform parents/guardians and staff of the pesticide management policy.</li> </ul>			
• Employ only State of Connecticut licensed and certified pesticide applicators for any non- emergency pesticide use in school buildings or on school grounds.			
During the past school year, the following pesticides were used or applied at the (insert school name]:
