

## **Personnel -- Certified/Non-Certified**

### **Concepts and Roles in Personnel**

All parts of the school system exist for one purpose: to facilitate the educational development of the students. A dynamic and efficient staff dedicated to education is necessary to constantly improve the education program for the students. The development of personnel policies for certified and non-certified staff is an essential component of the educational program in this school district. The philosophy of the district and the community will be reflected in these policies.

Through the personnel policies the Board of Education will maintain a school environment that will attract and retain the most qualified people.
